x.com/okancifci00

Final-year mechatronics engineering student and software developer at Pressio. I build mobile apps and websites with React Native, Next.js and Supabase, use AI both to move faster and inside the products I ship, and enjoy the hardware side just as much – from a robotic hand to a graduation-project drone.

EXPERIENCE **Software Developer** at Pressio **CURRENT**
AI-powered press release platform: an AI editor drafts the release with the customer, and Pressio distributes it to hundreds of national and global news sites with guaranteed publication and real-time reporting.
pressio.media

Freelance Mobile & Web Developer **CURRENT**
Design, build and ship apps and websites for clients end to end – from a London cleaning company's booking app to a coffee shop's loyalty app and website, both live on the App Store.

EDUCATION **B.Sc. Mechatronics Engineering** — Istanbul Bilgi University **FINAL YEAR**
Taught in English · GPA 2.95 / 4.00
Graduation project, in progress: designing and building a drone from the ground up with classmates.

PROJECTS **SirGreen London** **MOBILE APP · APP STORE**
Cleaning service app for a London-based company: customers book services, track appointments and manage their account.
REACT NATIVE · EXPO · SUPABASE · TYPESCRIPT

Sunpeak Coffee **APP & WEB · APP STORE**
Loyalty programme for a coffee shop – points on every purchase, redeemed for free drinks. Mobile app and website.
REACT NATIVE · EXPO · REACT · SUPABASE · TYPESCRIPT

Bilgi Santa **WEB APP · 120+ USERS**
Secret Santa for Istanbul Bilgi University students: personality-based profiles, random matching and anonymous gifting.
NEXT.JS · SUPABASE · TYPESCRIPT · TAILWIND

Swipe Gallery **IOS APP · SOLD**
My first app: a Tinder-style gallery cleaner – swipe to delete or keep photos and free up storage.
SWIFTUI

Robotic Hand **HARDWARE**
3D-printed hand driven by Arduino and servos that mirrors a real hand in real time with computer vision – it even plays rock-paper-scissors.
ARDUINO · PYTHON · OPENCV · SOLIDWORKS · 3D PRINTING

SKILLS

Mobile	React Native, Expo, SwiftUI
Web	Next.js, React, TypeScript, Tailwind CSS
Backend	Supabase
Hardware	Arduino, Python, OpenCV, SolidWorks, 3D printing
AI	AI-assisted development and AI features in shipped products
